Eco club play an important role in creating environmental awareness amongst the future generation. An eco-club will help to promote, monitor and operate the environment activities of the school. Eco club encourage students to think creatively as they apply their knowledge to real everyday thinking. Involving students in participation through real responsibility improves self-esteem, which impacts learning. The attitudes developed will stay with pupils throughout their lives. SMALL GROUP ACTIVITY

TOPIC: How to make English classes more interesting & creative.

TEAM LEADER: Tr.Tanushree&Tr.Rima

TEAM MEMBERS: Tr.Gunjan, Tr.Indrani,Tr.Shantanu

OBJECTIVE: We chose this topic for our small group activity because we as teachers found that these days' students are losing interest day by day towards their studies. Students are more likely to express their ideas and think outside the box. Creative classrooms don't just look different but they even feel different.

BENJAMIN FRANKLIN once said,"Tell me and I may forget, Teach me and I may remember, involve me and I learn". So, with this positive thought we have shortlisted some views and ideas to make our English classes more interesting and creative.

*Learn root words

*Teach word stress

*Avoid judging

*Be vulnerable

*Skits

*Practice the four core skills:reading,writing,speaking and listening
